

# FAST 1 CAB SHELL

## GENERATION 2

**REDUCE YOUR  
MOD SCHEDULE  
BY 5 DAYS!**

The Fast 1 G2 Elevator Shell moves modernization projects forward—faster, cleaner, and with less complexity. Its fully integrated design combines structural, electrical, and safety components into one coordinated solution, eliminating many time-consuming on-site steps.

By reducing custom fabrication through plug-and-play wire harnesses and streamlining installation through integration, the Fast 1 G2 helps crews work more efficiently and consistently—resulting in shorter timelines, fewer variables, and greater project capacity.

- ⦿ Integrated interior (*Minus 11 hours*)
- ⦿ Integrated Raceways and Plug and Play harnesses (*Minus 7 hours*)
- ⦿ Integrated Landing Unit brackets (*Minus 2 hours*)
- ⦿ Integrated door operator specific brackets (*Minus 5 hours*)
