# THE 2019 CODE CHANGE IS HERE

**MosaicONE Video & Messaging System** (VMS) is the complete solution for elevator emergency communications. Adding *Video* and *Text* Messaging capabilities to the traditional *audio* communication, VMS delivers code compliance with minimal effort. We provide a fast and easy install to get your building up and running quick and hassle-free.

- CSA B44:19 Code Compliant System

- 2-way Voice & Text messaging and 1-way Video

- Our flexible system works with:

  - **Any** Phone

  - **Any** Elevator Contractor

  - **Any** Monitoring Centre

  - **Any** Controller

- PI & Digital Signage / Infotainment with curated content included on the same screen

- Call video & message back-up recordings

- Integration of cameras into building security

Audited by Cyber Security Experts

**A+** SSL Labs

**100%** Security Scorecard

## Simple Solutions

- Fully code compliant system.
- Easy plug-and-play installation to get your building up and running quickly and hassle-free.
- Easily add and manage building announcements to your screen with the click of a button.
- Constantly improving system with easy troubleshooting solutions.

## Seamless Security

- Non-Proprietary and compatible with any intercom/phone system, controller, contractor, or monitoring station. Flexibility to choose today and in the future.
- Audited regularly by 3rd party Cyber Security Consultants to keep the system up to date with the latest CS standards. A+ ratings from Security Scorecard, SSL Labs, and OSWAP top 10.

## Superior Value

- All components have gone through comprehensive testing (including environmental) to confirm compatibility, functionality, and long term reliability
- Our dedicated team continuously works on improvements, security updates, and regular network maintenance.
- MosaicONE VMS goes beyond compliance and offers add-on products such as Security Video Backup, elevator Usage Stats, and Call Recording.

## What's Included

- Elev8 Infotainment and Position Indicator that work with your VMS displays.
- Security cameras that easily integrate into your bulding.
- Call video & message backup recordings.
- Peace of mind with the most secure system on the market.

## Monitoring Options

### Onsite Monitoring

- View live HD video of all elevators and interact via touchscreen to address a situation quickly and efficiently
- Onsite Security can interact via a dedicated computer.

### Offsite Monitoring

- **Secure Monitoring:** On-demand point to point encrypted connection between the elevator, PC, and monitoring station.
- **Intuitive Dashboard:** Incoming calls are queued on a communication panel for authorized personnel to answer locally or through MosaicONE.

## Get more out of your display

With **Elev8,** the days of pinning building notices to the corkboard are over!
